

ATP Insurance Program

LOSS CONTROL SERVICES

ATP is pleased to offer several loss control resources through our carrier partner, Allied World Insurance Company.

PURE SAFETY

A web-based library of over 700 workplace health and safety courses available on-demand 24/7. Just a few of the courses included:

- Workplace Violence Prevention Awareness
- Incident Management
- Sexual Harassment Prevention
- Egress and Emergency Action Plans
- First Aid – 11 Specialized Modules
- Bloodborne Pathogens (BBP)
- Cyber Security
- 15-Passenger Van Safety
- Defensive Driving
- Incident Investigation
- And more deeply discounted and free modules

CUSTOMIZED LOSS CONTROL

For larger, more complex risks, customized loss control reviews are available via Allied World's Risk Management Team.

NFSI (NATIONAL FLOOR SAFETY INSTITUTE) - FREE SERVICE

Slip, Trip and Fall online resource portal in partnership with NFSI, which provides policyholders access to training programs, industry standards, checklists, short clip video training, research library and "ask an expert" email and phone access.

PRAESIDIUM CRIMINAL BACKGROUND CHECKS - DISCOUNTED SERVICE

Praesidium, an industry leader in abuse risk management, has developed a comprehensive background check package designed for human services clients. The package is available to ATP insureds for just \$9.95 per report.

DRIVER AND FLEET SAFETY RESOURCES

ALERT DRIVING - DISCOUNTED SERVICE

Web-based Hazard Perception Evaluation is a state-of-the-art predictive behavior analysis tool designed to identify driver risk in six core competency areas. Drivers are evaluated on their ability to identify dangerous driving situations and correctly answer a series of safe driving questions. They are then automatically assigned specific, targeted training modules to address their deficiencies.

ORION FLEET INTELLIGENCE

The Orion Fleet Intelligence Program is now available for a risk-free, 90-day free discovery period to help your policyholders control the costs of operating and insuring their fleets, while allowing them to monitor and manage driving behavior. Customers of this fleet safety solution are among the safest and most efficient fleets on the road. It has been widely recognized for its track record of generating rapid and sustained results without burdening the fleet operator with more work
