Virus/Communicable Disease Questionnaire

1. Does the Insured have appropriate screening procedures (consistent with CDC guidelines) for all patients entering facilities?

2. Are these procedures being reviewed and updated as updated CDC Guidelines are released?

3. Where logistically feasible, does patient screening occur outside of the office such as in a hallway or under a covered entryway to the facility?

4. Do you have protocols/procedures for handling any patient demonstrating a positive screen.?

5. Do you have procedures and protocols on appropriate sanitizing and cleaning of facilities and furniture between visits and at the conclusion of each day?

6. Do you have procedures and protocols on appropriate sanitizing and cleaning of all diagnostic equipment between visits and at the conclusion of each day?

7. Where feasible, is personal protective equipment used by the insured and clients (gloves, mask, etc.)?
